WILDSONG

SYRAH

HAWKE'S BAY 2020

Wildsong wines are uncomplicated and grounded with a gentle tale or two to tell of the soil they were grown in and the people who made them. Grown with respect, made with heart and packed with attitude. There's a little Wildsong in each of us.

VINEYARD

Wildsong Syrah comes from our Bridge Pā vineyard, in the renowned region of the 'Bridge Pā Triangle'. Consistently our warmest site, this land was formed around 40,000 years ago as the Ngaruroro River flooded and flowed through the region leaving greywacke stone in its wake. These free draining soils and warm climate allow for a beautiful depth and intensity in the resulting wines.

WINERY

Machine picked and cold soaked for 3-4 days before fermenting dry with indigenous yeast. Extended maceration on skins before being pressed off into barrel. Indigenous malo-lactic fermentation before 12 months maturing in a mixture of new (15%) and seasoned French oak, before being bottled un-fined.

TASTE

Bright, vibrant dark red fruits on the nose with sweet cardamom and cinnamon spice. Warm and rich on the palate with boysenberry, plum and dark roasted spices. Fresh and lively palate that finishes long and fine with just a hint of toasty oak.

Alcohol: 13.0%

Standard Drinks: 7.8 standard drinks

Allergens: Contains Sulphites

Dietary: Vegan friendly wine
